

Install instruction

1. Install plugin
2. After plugin's activating you see new items in menu

3. Hover services and choose «Add service»

- 3.1 Set service name, service price, service time duration (in minutes) and save it.

The screenshot shows the 'Add service' form. At the top, there is a text input field labeled 'Enter title here' with a red arrow pointing to it and the text 'Service name' next to it. Below the title field is a rich text editor with a toolbar and a large text area. A red arrow points to the text area with the text 'Service description (optional)'. To the right of the form is a 'Publish' sidebar with buttons for 'Save Draft', 'Preview', and 'Publish'. A red arrow points to the 'Publish' button with the text 'save it'. Below the text editor is a 'Service params' section with a 'Price' input field and a 'Service time' dropdown menu. Red arrows point to these fields with the text 'set price' and 'set service duration in minutes' respectively. A 'Word count: 0' indicator is visible at the bottom of the text editor.
